AGILITY AND PERFORMANCE

Delivering a heightened level of agility and handling, all-wheel drive ensures Ghost is nimble in the city as well as on the open road. The all-wheel steering control kicks in when Ghost is moving below 70kph. Above 70kph the wheels co-steer, providing Ghost's world-famous Magic Carpet Ride.

ALUMINIUM SPACEFRAME

Ghost's new aluminium spaceframe delivers a richer experience from the ground up.

MINIMALIST LINES

Simple but distilled, the main structure of Ghost appears as one fluid canvas, uninterrupted by the shut lines, projecting movement and dynamism.

PLANAR SUSPENSION

Evolving the signature Rolls-Royce Magic Carpet Ride, the Planar Suspension System creates unrivalled passenger comfort and driver control. It comes as standard on both Ghost and Ghost Extended.

TWIN TURBO ENGINE

The next-generation 6.75L V12 engine delivers a near-instant torque response at just 1,600rpm, providing dynamic and agile performance.

ILLUMINATED GRILLE

Ghost's post-opulent aesthetic is perfectly captured by the Illuminated Grille. From beneath its top, 20 LEDs subtly light the metal bars to create an ethereal glow.

CRAFTSMANSHIP

The finest woods, leathers and metals are hand-crafted by Rolls-Royce's team of artisans.

The result is an interior that celebrates material substance free from unnecessary embellishment and superfluous detail.

STARLIGHT HEADLINER

The iconic Starlight Headliner embodies Ghost's heavenly beauty. Shooting stars fire at random every few seconds, heightening every moment.

ILLUMINATED FASCIA

When Ghost is in motion, the high-gloss Fascia is enlivened by the brilliance of 850 three-dimensional stars

GHOST EXTENDED

With its additional rear space, Rolls-Royce Ghost Extended has uncompromised driving dynamics.

It is both a chauffeur-driven business partner and a serenely agile personal saloon.

ROOM FOR MORE

Increased cabin space ensures an even more pleasurable experience for rear-seat occupants.

SERENITY SEATS

Serenity Seats offer seat backs and cushioned calf rests, both electrically adjustable to offer a sublime level of relaxation akin to first class travel.

Fuel economy and CO₂ results for Rolls-Royce Ghost: NEDC combined: CO₂ emissions: 343g/km; Fuel consumption: 18.8 mpg / 15.0 l/100km.
WLTP combined: CO₂ emissions: 347-359g/km; Fuel consumption: 18.6-17.9 mpg / 15.8-15.2 l/100km.

Figures are for comparison purposes and may not reflect real-life driving results, which depend on a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. All figures were determined according to a new test (WLTP). The CO₂ figures were translated back to the outgoing test (NEDC) and will be used to calculate vehicle tax on first registration. Only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedure.
